SoftWorld's Introduction

SoftWorld International (SWI) is a leading end-to-end Solution provider of Information Technology Products, Solutions and Services, that includes technology solution designing and system integration. Founded in 1999, as a Private Limited Company.

Technology changes are happening too rapidly for many companies to keep up. New technologies is revolutionizing just about every industry and profession, from finance and media to engineering and manufacturing. To keep up organizations with technological change, SWI is continually increasing the breadth of technology offerings and up-to-date technical knowledge.

Our in-depth technical knowledge coupled with Industry experience and the unique methodology enables us to successfully deliver. Our commitment towards excellence and meritocracy reflects in the solutions we deliver.

Team at SoftWorld is equipped with best-of-breed products technologies and expertise to provide business solutions and services to meet customer needs.

Solutions Offering

Services & Support

SoftWorld Int'l have certified sales team with strong technical background and experience in each of our products, providing superior pre sales support, and post implementation follow-up. Our technical team consists of certified engineers, highly experienced through continuous successful implementations and certification courses.

Team at SoftWorld Int'l is equipped with best-of-breed products technologies and expertise to provide business solutions to meet your needs and solve the most difficult technology problems.

IT Service & Maintenance Contacts

The rapid changes in technology, and business rules, make it difficult for in-house functions to offer different skills and performance measures to stay ahead of the curve, along with being productive and competitive at the same time. Our industry knowledge of this fast moving area can help you make the right choices for your company, and avoid costly mistakes.
